Release status: Coming to Steam in October 2026. Wishlist ASTERIS on Steam.

Available in 13 languages

Contact: support@asterisgame.com

THE GAME

A 1-4 player action roguelite that fuses thousands of powerful builds with MMO-style co-op raids. Reshape every active skill to suit your style, inherit a god's mighty power and awaken. Dive into gear and growth, appearance collecting and a player marketplace.

Runes that rewrite skills - two of four runes, one of four completion moves: 24 ways to cast every skill.

Party roles that matter - tank, damage and healer working as one, all the way to a six-boss raid.

A god's power, mid-run - five gods, five ultimates, one awakening that turns the battle.

Growth that outlives the run - enhance your gear, collect appearances, trade in the player marketplace.

KEY FEATURES

Runes that rewrite skills - two of four runes, one of four completion moves: 24 ways to cast every skill.

Party roles that matter - tank, damage and healer working as one, all the way to a six-boss raid.

A god's power, mid-run - five gods, five ultimates, one awakening that turns the battle.

Growth that outlives the run - enhance your gear, collect appearances, trade in the player marketplace.

Media - Twelve 4K gameplay screenshots and 18 downloadable videos, including the prologue, trailers, gameplay and hero introductions.

FOR CREATORS

Preview access: Email support@asterisgame.com with your channel, language and party size. Access is confirmed individually; keys are not included.

Co-op: Each player needs Steam access and the same compatible build. Create a party in the lobby, invite friends and ready up. Discord game invites use the desktop app.

Coverage ideas: Compare rune combinations, show divine awakening, or team up against Azhdarak. Confirm the current build and known issues before recording.

ASSET USE

Use the supplied official artwork, gameplay screenshots and videos to identify ASTERIS in editorial coverage. Distinguish cinematic artwork from gameplay. Confirm livestream, monetized-video, preview-build and music permissions with the team when arranging access. No positive review is required; paid collaborations are agreed separately.
